Archæological Notes were first published in *Proceedings* **8** (1), 1957, and have appeared five times since then. Before 1957 short archæological accounts were published as articles in their own right and as such they have been listed in the main author index to *Proceedings*. At the time of writing (Jan., 1969), offprints of all the notes, in groups, are still available, with the exception of 1958, **8** (2).
